

Friday, March 6, 1981

I returned a call to Assistant U.S. Attorney George Stoll (San Francisco) 415-556-6433. He stated he had talked to the NTSB and that they stated I had not offered evidence in the petition for reopening the PSA accident hearing. He agreed, with me, that the supporting evidence is not appropriate with the request for the rehearing. He offered the comment that the NTSB did not do a proper in-depth investigation into the area I discussed in my petition/complaint.

A handwritten signature in black ink, appearing to read "George Stoll". The signature is stylized and cursive, written in the lower right quadrant of the page.
